

# Gain Flexibility by Leveraging our Strengths

1.800.264.8851

## FLEX

Improve Productivity  
Mitigate Risk  
Reduce Cost

Whether fully supporting your technology environment or supplementing your internal IT staff, FLEX is your enterprise IT solution.

### Benefits of FLEX Managed IT Services

Broad Expertise and Capacity  
Readiness to Respond  
Supplemental Staffing

Predictable Budget  
Enhance Security  
Reduce Downtime  
Assure Compliance

### Talent

Our technicians and engineers are trained and certified on the latest technologies, so they are qualified and ready to provide your organization with great service and support.

### Ever Watching

Our Remote Monitoring and Management team watches and keeps your devices up to date. Technicians monitor through alerts and reporting to proactively remediate issues before they impact your organization.

### Responsive

Technicians and engineers staff our Remote Support Center, each ready to address your issues and requests.

### Ready to Go

Our service team is ready when on-site work is needed. On-site staff augmentation is also available.

*Average resolution of your issues and requests by our Remote Support Center without escalation tops 91% - saving your time and money*

free up  
resources to  
focus on your  
business
